Introduction

The Ministry of Education and Sports is pleased to present this year its publication, the Statistical Yearbook for Education and Sports 2021-2022, which presents detailed statistical data for the education system.

The vision of the Ministry of Education and Sports for the education sector aims to build a quality education system, which successfully addresses the individual needs of all children, pupils and students, treating them equally and with respect, based on their diversity. Inclusion is a prerequisite to ensure the development of all individuals to their full potential and to narrow the educational achievement gap between different social groups.

The Ministry of Education and Sports designs and implements policies aimed at ensuring a quality education system, the prospective development of education, respecting the interests of the individual, the community and society and equipping them with the necessary knowledge to face the demands of the economy market, in accordance with national and European priorities; creation, transmission, development and protection of knowledge through teaching, scientific research and services.

The Ministry of Education and Sports designs and implements policies for the development of scientific research and innovation, in support of the country's development policies.

The Ministry of Education and Sports designs, programs, develops and coordinates the work for national policies in the field of sports; drafts protective and promotional policies, as well as creates the necessary spaces for the development and improvement of Albanian sports.

Developments in the fields of education and sports make it necessary to provide data through statistical reports. This statistical yearbook aims to familiarize with the changes in the education and sports system in Albania, development trends and comparison in time series, providing those interested with official data.

This material also serves policy-makers in the fields of education, sports as well as all educational and sports institutions to design strategies and reforms.

The statistical yearbook, consistently, uniformly and solidly with previous editions, contains reflected statistical data on educational institutions, registrations, graduations, teaching staff/academic personnel, as well as data on sports in the Republic of Albania.

Most of the statistical data in this yearbook is presented for a 10-year time series as well as more detailed for the school/academic year 2020-2021.

The information grouped into three main parts: Pre-University Education, Higher Education, as well as the field of sports. Statistical information presents the situation in the public and private education system, giving the opportunity to make comparisons with different educational indicators. In addition, this information provides general information about the organization of sports in Albania.

The accuracy of the information and the degree of its reliability are important indicators for the design of fair and effective educational and sports policies, which enable, among others, the implementation of the cost-effectiveness principle in the use of financial resources in education and sports.

STRUCTURE OF THE EDUCATION SYSTEM IN ALBANIA

The Educational System in the Republic of Albania consists of:

“Level with code 0”, pre-school education;

“Level with code 1”, primary education;

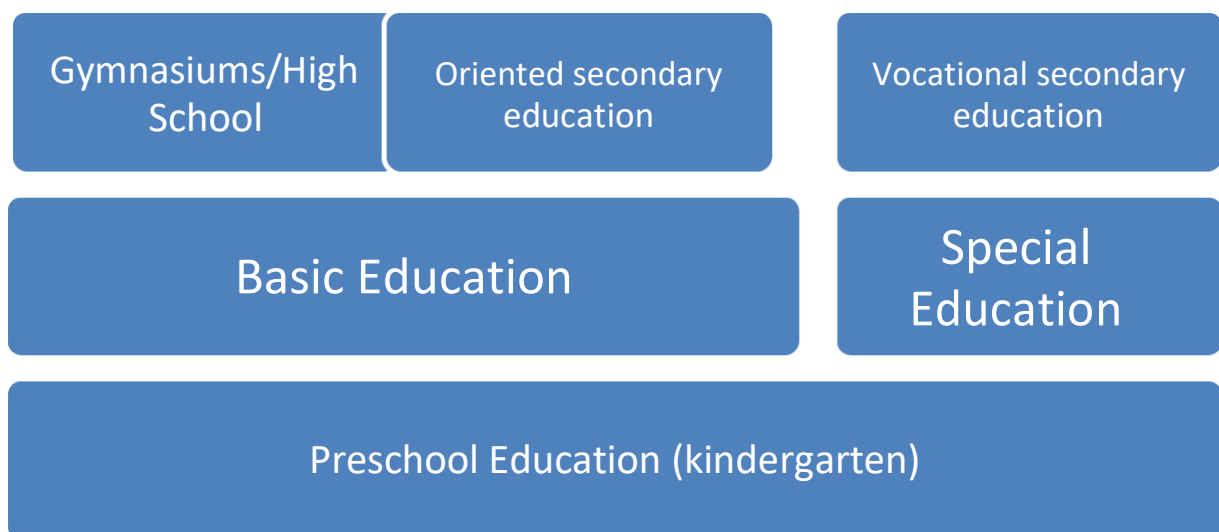

“Level with code 2”, lower secondary education;

“Level with code 3”, upper secondary education (gymnasium, vocational secondary education and oriented secondary education);

“Level with code 5”, tertiary education;

Adult education.

Basic education aims at the social, intellectual and physical development of every student, the mastery of rules of conduct and the cultivation of values, care for health, as well as sufficient preparation for the continuation of upper secondary education or for the labor market;

Upper secondary education aims at the further development of the competences acquired from basic education, the consolidation of the individuality of each student and the totality of values and attitudes, the expansion and deepening of certain fields of knowledge, preparation for tertiary education or for the labor market.

Higher education is a good and a public responsibility and has the following mission:

- a) to create, develop, transmit and protect knowledge through teaching, scientific research, as well as promote and develop the arts, physical education and sports;
- b) to train senior specialists and prepare young scientists, in accordance with the country's development priorities, contributing to the increase of democracy standards in the country;
- c) to provide equal opportunities to benefit from tertiary education and lifelong learning;
- d) to contribute to the economic, social and cultural development at the national and regional level, as well as to the strengthening of public and national security;
- e) to support the strategic priorities and development interests of the country;
- f) to integrate teaching with scientific research;
- g) to promote international cooperation in the field of higher education.

I. PRE-UNIVERSITY EDUCATION

A. PRE-SCHOOL EDUCATION

Pre-school education in the Republic of Albania is public and non-public and is not compulsory. Pre-school education attended by children between the ages of three and six. Children of the age of five allowed to attend the preparatory class even at the basic education schools, with the aim of integration into compulsory education.

Kindergartens are institutions under the administration of local self-government units.

B. BASIC EDUCATION

Full-time basic education is compulsory for all children who are Albanian citizens residing in the Republic of Albania from the age of 6 to the age of 16, except for cases provided by law. The student is entitled to enroll in full-time basic education when they reach the age of 6, even after the start of the school year, until December 31 of the same calendar year, up to the age of 17. The student has the right to attend full-time basic education until the age of 17. The student, who has reached the age of 17 and has not completed basic education, allowed to complete the class he is attending. Students who have reached the age of 16 and have not completed full-time basic education have the right to enroll in part-time basic education schools.

Basic Education includes: Primary Education (grades 1-5) and Lower Secondary Education (grades 6-9).

Primary education consists of five grades, from grade I to grade V. In the first grade, children who reach the age of 6 by the day school starts are enrolled. The age of children in this cycle is 6-11 years old, excluding children who repeat the class. First, second and third graders assessed on words and expressions. Students of other classes assessed with marks, whole numbers from 4 to 10, where the lowest passing grade is mark five.

Lower secondary education consists of four grades, from grade VI to grade IX. The age of students is 12-15 years old, except for students who repeat the year. At the end of grade IX, students undergo national exams and receive a certificate of basic education.

C. UPPER SECONDARY EDUCATION

Upper Secondary Education is not compulsory.

In the tenth grade of full-time upper secondary education, students no older than eighteen years of age are accepted. A student up to the age of 21 allowed follow a 3-year upper secondary education, while up to the age of 22, a 4-year upper secondary education.

The types of Upper Secondary Education are gymnasium (full-time and part-time), vocational secondary education and oriented secondary education.

Gymnasium (high schools)

The gymnasium/high school consists of three grades. Students who reached the age of 21 and have not completed high school allowed to attend high school part-time.

Vocational Secondary Education

Vocational secondary education has a duration of 2 to 4 years and structured in three qualification levels, in accordance with the levels of the Albanian Framework of Qualifications. Secondary Vocational Education administered by the Ministry of Finance and Economy.

Oriented secondary education

Oriented education schools are art schools, sports schools, foreign language schools and schools for other fields of learning.

II. TERTIARY EDUCATION

Tertiary Education system includes: Universities, Academies, University Colleges and Higher Professional Colleges. "Higher Education Institutions – HEIs" are legal entities that provide higher education or professional training after upper secondary education and, according to the type of the institution, also scientific research, as part of the higher education system, established, and that carry out their activity in compliance with legal and by-laws in force. The forms of studies in HEIs are: full-time studies and extended-time studies.

Study programs in higher education institutions organized in three consecutive cycles, referring to levels 6-8 of the Albanian Framework of Qualifications:

- *first cycle*: Bachelor, referred to level 6 of the Albanian Framework of Qualifications;
- *second cycle*: "Master of Science", "Master of Arts" and "Professional Master", referring to level 7 of the Albanian Framework of Qualifications;
- *third cycle*: long-term specialized study programs, as well as doctoral studies, referred to level 8 of the Albanian Qualifications Framework.

Higher education institutions also offer professional diplomas, referring to level 5 of the Albanian Framework of Qualifications.

Enrolments in Pre-University and Higher Education

Gross enrolment ratio (GER)

Number of pupils enrolled in a given level of education, regardless of age, expressed as a percentage of the population of the theoretical age group for the same level of education.

Net enrolment ratio (NER)

Number of pupils in the theoretical age group for a given grade/level of education enrolled in that level expressed as a percentage of the total population in that age group.

III. SPORTS

Sport in Albania is a public activity. The state encourages the development of school sports, sports for all and elite sports by supporting the participation of citizens in sports by fulfilling of legal, financial and sports infrastructure conditions. The Ministry of Education and Sports drafts and implements the state policy in the field of sports, fulfills and improves the legal framework of sports, cooperates for the development of sports while respecting the independence of the functioning of sports organizations.

The state delegates the right to organize and develop national and international sports activities to only one sports federation in a specific sport.

Athletes are amateurs and professionals, according to the conditions defined in the statutes and regulations of the national sports federations. Professional athletes practice sports as a profession and earn income based on signing a work contract with associations, societies or sports clubs, of which they are members. Amateur athletes practice their sport and do not have any employment contract related to the sports club or association where they are registered and the representation in it is on a voluntary basis.

“Sports organization”: the Albanian National Olympic Committee, sports federations, sports clubs, sports associations and sports societies, which develop sports activities.

“Sports Federation”: a legal entity, created in the form of an association, whose members are sports associations, sports societies and sports clubs that carry out activities in a certain sport, and which aims to organize, develop, promote, and control, the regulation, and spreading of a certain sport throughout the territory of the Republic of Albania.

“Sport” is the set of psychophysical actions aimed at the development of athletes, entertainment, education, preservation and strengthening of health, improvement of their overall well-being and success in sports competitions.

METHODOLOGY

The 2021-2022 statistical yearbook organized into three main parts:

The first part reflects indicators on Pre-University Education: students, schools and teachers.

The second part reflects the indicators on Higher Education: students, institutions and academic staff.

The third part reflects indicators on sports.

Data description

The data collection on Pre-University Education was carried out through the Data Collection Management System, via the statistics of the Regional Educational Directorates and Educational Offices in the territory of the municipalities.

Data on public and private university education collected by the public and private Higher Education Institutions.

Sports statistics contain statistical data related to sports activities and data on the number of athletes in some of the sports disciplines as well as other statistical data collected by the sports federation.

Rënia e numrit të nxënësve për arsimin bazë shpjegohet me uljen e numrit të lindjeve dhe dukurisë së emigrimit. Ndërsa për arsimin e mesëm ulja e numrit të nxënësve vit pas viti është për efekt të uljes së numrit të lindjeve, por nuk ka ulje të përqindjes të tërheqjes së numrit të nxënësve që vazhdojnë shkollën e mesme pas përfundimit të sistemit 9-vjeçar.

Për vitin 2008-2009, rënia e numrit të nxënësve në arsimin e mesëm ka ardhur si pasojë e kalimit të arsimit bazë nga sistemi 8-vjeçar në sistemin-9 vjeçar.

Table 1 shows the total number of students in Pre-University Education in the years 2006 - 2022, also classified according to the structure of the pre-university system in Albania. The decrease in the number of students in basic education explained by the decrease of births' number and the phenomenon of emigration.

In secondary education, the decrease of students' number year after year is a consequence of the decrease of births' number, while there is no decrease in the percentage of the number of students who continue to secondary school after the end of the 9-year system.

In 2008-2009, the drop in the number of students in secondary education came because of the transition of basic education from the 8-year-old system to the 9-year system.

Një informacion të plotë mbi numrin e shkollave për sistemin publik dhe privat për serinë kohore është paraqitur në Tabelën 5. Në sistemin tonë arsimor funksionojnë shkolla jo-vartëse dhe shkolla vartëse. Çdo shkollë vartëse është në varësi të një shkolle jo-vartëse, gjë që nënkupton se ato përfaqësojnë një institucion shkollor.

A full information on the number of public and private schools for the time series is presented in Table 5.

In our educational system there are non-dependent schools and dependent schools. Each dependent school is under the control of a non-dependent school, which means they represent a school institution.

Tabela paraqet numrin e nxënësve në arsimin bazë, publik dhe privat, ndarë sipas cikleve në serinë kohore.

Në tabelën 7 paraqiten të dhëna të detajuara sipas DRAP/ZVAP për nxënësit e regjistruar sipas cikleve, për vitin shkollor 2021-2022.

*Rritja, jashtë trendit të serisë kohore, për vitin shkollor 2008-2009, është rezultat i ndryshimit të strukturës së arsimit bazë, nga sistemi 8-vjeçar në sistemin 9-vjeçar.

The table presents the number of students in basic education, public and private, divided by cycles in the time series.

Table 7 presents detailed data according to RDPE/LOPE for students registered according to cycles, for the 2021-2022 school year.

*The increase, outside the time series trend, for the school year 2008-2009, is the result of the change in the structure of basic education, from the 8-year system to the 9-year system.

Tabela 12 tregon numrin e shkollave të mesme në sistemin publik dhe privat, sipas vendndodhjes. Në sistemin arsimor në Shqipëri ka shkolla të mesme/gjinnaze, që ofrojnë program të përgjithshëm studimi, si dhe shkolla të mesme profesionale që ofrojnë programe studimi të drejtimit tekniko-profesional ose social-kulturor. Brenda këtyre dy lloj shkollave ekzistojnë edhe shkollat e mesme të bashkuara, kryesisht të drejtimit të përgjithshëm (gjinnaz) të bashkuara me 9-vjeçare, të cilat janë të raportuara dy herë dhe në arsimin bazë dhe në arsimin e mesëm.

Table 12 shows the number of high schools in the public and private system, by location. In the educational system in Albania, there are general high schools/gymnasiums, which offer a general study program, as well as vocational high schools that offer technical-professional or social-cultural study programs. Within these two types of schools, there are also joint secondary schools, mainly of general direction (gymnasium) with 9 years, which reported twice in both basic education and secondary education.

Tabela 14 tregon numrin e nxënësve të regjistruar në arsimin e mesëm, publik dhe privat, sipas vendndodhjes së shkollës (fshat/qytet).

Tabela 15 jep informacion të detajuar për vitin shkollor 2021-2022 në nivel DRAP/ZVAP. Nxënësit e arsimit të mesëm profesional nuk janë përfshirë për vitin 2021-2022.

* Rënia e numrit të nxënësve në vitin shkollor 2008-2009 është rezultat i ndryshimit të strukturës së arsimit bazë nga 8-vjeçar në 9-vjeçar dhe të arsimit të mesëm të përgjithshëm nga 4-vjeçar në 3 vjeçar.

Table 14 shows the number of registered students in secondary education, public and private, by school location (village/town).

Table 15 provides detailed information for the 2021-2022 school year at the RDPE/LOPE level. Vocational secondary education students are not included for the year 2021-2022.

* The decrease in the number of students in the 2008-2009 school year is the result of the change in the structure of basic education from 8-year to 9-year and general secondary education from 4-year to 3-year.

Tabela 18 tregon numrin e mësuesve në arsimin e mesëm, publik e privat, sipas gjinisë dhe vendndodhjes së shkollës në serinë kohore. Mësuesit e arsimit të mesëm profesional nuk janë përfshirë për vitin shkollor 2017 -2018 dhe 2018-2019.

Tabela 19 jep të dhëna të detajuara sipas DRAP/ZVAP për vitin shkollor 2021-2022.

Ulja e numrit të mësuesve për vitin shkollor 2008-2009 është rezultat i kalimit të arsimit bazë nga sistemi 8-vjeçar në 9-vjeçar.

Table 18 shows the number of teachers in secondary education, public and private, by gender and school location in the time series. Vocational secondary education teachers are not included for the school year 2017-2018 and 2018-2019.

Table 19 provides detailed data by RDPE/LOPE for the 2021-2022 school year.

The decrease in the number of teachers for the 2008-2009 school year is the result of the transition of basic education from the 8-year system to the 9-year system.

Tabela 20 paraqet pranimet e reja në klasën e parë të arsimit bazë. Pranuar të rinj, për një vit shkollor, nënkupton numrin e nxënësve që regjistrohen për herë të parë në klasë të parë në arsimin bazë.

Duke analizuar në tabelë ndarjen publik/ privat vihet re se në arsimin bazë privat trendi i pranimeve të reja është në zbritje.

Table 20 presents the new admissions in the first grade of basic education. Newly admitted, for a school year, means the number of pupils who register for the first time in the first grade in basic education.

Analyzing the public/private division, it is found that in private basic education, the trend of new admissions is decreasing.

Numri i nxënësve të pranuar të rinj në arsimin e mesëm të lartë sipas serisë kohore, llojit të shkollave të mesme dhe sistemeve publik e privat, është paraqitur në tabelën 21. Arsimi profesional nuk është përfshirë për vitin 2017-2018, 2018-2019, 2019-2020, 2020-2021 dhe 2021-2022.

Nxënës të pranuar të rinj në arsimin e mesëm të lartë, për një vit shkollor, nënkupton numrin e nxënësve që regjistrohen për herë të parë në vit të parë (përfshirë sistemin me kohë të plotë dhe me kohë të pjesshme).

*Në vitin shkollor 2008-2009 në arsimin e mesëm nuk ka pranime të reja për shkak të kalimit të arsimit bazë nga sistemi 8-vjeçar në atë 9-vjeçar.

The number of newly admitted students in secondary education according to time series, type of secondary schools and public and private systems, is presented in table 21.

Vocational education is not included for the years 2017-2018, 2018-2019, 2019-2020, 2020-2021 and 2021-2022.

New students admitted to secondary education, for a school year, means the number of students who register for the first time in the first year (including the full-time and part-time system).

*In the 2008-2009 school year, there are no new admissions in secondary education due to the transition of basic education from the 8-year system to the 9-year system.

Një nga treguesit kryesor për arsimin bazë është përqindja e nxënësve që braktisin shkollën. Nxënës që braktisin shkollën konsiderohen ata nxënës që regjistrohen në fillim të vitit shkollor dhe në fund të tij rezultojnë të paklasifikuar për shkak të mungesave në procesin mësimor.

One of the main indicators for basic education is the percentage of dropout students. Students who dropout school are considered those students enrolled at the beginning of a school year and at the end of it are unclassified due to absence in the teaching process.

*Në vitin shkollor 2007-2008 nuk ka nxënës që të marrin Dëftesë të Arsimit Bazë, për shkak të kalimit të arsimit bazë nga sistemi 8 vjeçar në sistemin 9 vjeçar. Për vitin shkollor 2018-2019 dhe 2019-2020 nuk janë raportuar diplomimet në arsimin profesional.

*Because of the transition from an 8-year school system to a 9-year system, no students received Basic Education Certificates in 2007-2008. No graduations in vocational education reported for the school years 2018-2019 and 2019-2020.

Tabela 27 paraqet numrin e nxënësve që përfunduan arsimin bazë dhe morën Dëftesë në përfundim të vitit shkollor aktual.

Numri i nxënësve që marrin Dëftesë, si në rubrikën "gjithsej" edhe në "fshat", ulet vit pas viti, sipas numrit të nxënësve të regjistruar në arsimin bazë.

*Në vitin shkollor 2007-2008 nuk ka nxënës që të marrin Dëftesë të Arsimit Bazë, për shkak të kalimit të arsimit bazë nga sistemi 8 vjeçar në sistemin 9 vjeçar.

Table 27 shows the number of students who completed basic education and received certificates at the end of the current school year.

According to the number of students enrolled in basic education, the number of students receiving Certificates decreases both in the "total" and in the "rural" columns.

*Because of the transition from an 8-year school system to a 9-year system, no students received Basic Education Certificates in 2007-2008.

Tabela 30 paraqet numrin e nxënësve që kanë marrë Dëftesë Pjekurie / Diplomë të Maturës Shtetërore sipas vendndodhjes së shkollës.

Vihet re se numri nxënësve që marrin Dëftesë Pjekurie / Diplomë të Maturës Shtetërore është në rritje nga viti në vit, në përputhje me tendencën në rritje të regjistrimeve në arsimin e mesëm të lartë. Përqindja e diplomimeve vjetore të maturës është relativisht e qëndrueshme në serinë kohore.

Table 30 presents the number of students who have received a Matriculation Certificate / State Matura Diploma, according to the location of the school.

It is noted that the number of students who receive the Matriculation Certificate / State Matura Diploma is increasing from year to year, in accordance with the increasing trend of registrations in upper secondary education. The annual high school graduation rate is relatively stable in the time series.

Mësimi i gjuhës së huaj fillon me programe të detyruara në klasën e tretë të arsimit fillor. Në tabelë shihet se 98.1% e nxënësve të klasave III-V, në arsimin publik, mësojnë gjuhë të huaj. Në arsimin e mesëm të ulët 99.2% e nxënësve mësojnë të paktën një gjuhë të huaj.

Në arsimin e mesëm të lartë diapazoni i mësimin të gjuhëve të huaja, në shkollat publike, bëhet më i gjerë.

Në gjinnaz dhe në arsimin profesional 100% e nxënësve mësojnë të paktën një gjuhë të huaj. Gjithashtu funksionojnë edhe shkolla të mesme të gjuhëve të huaja, si bazë për formimin e mësuesve të gjuhëve të huaja, pas përfundimit të arsimit të lartë, në gjuhët përkatëse.

Foreign language learning begins with compulsory programs in the third grade of primary education. The table shows that 98.1% of students of grades III-V, in public education, learn foreign languages, while in lower secondary education, 99.2% of students learn at least one foreign language.

In upper secondary education, the range of foreign language learning, in public schools, becomes wider.

In high school and vocational education, 100% of students learn at least one foreign language. Secondary schools of foreign languages also operate as a basis for the training of foreign language teachers, after the completion of higher education, in the respective languages.
